

Devoted to create. Committed to perform.

## Contract Manager (m/f/d)

**CTI Systems S.à r.l. is a leader in the supply and installation of integrated automated manufacturing solutions in the area of heavy loads. Our portfolio includes automated material handling solutions, storage systems, surface treatment installations, assembly lines, software solutions for production control (MES) and integration of machines and installations from other suppliers.**

**We are looking for someone who could support us with the following tasks:**

- Elaboration, commenting and negotiation of the commercial contract conditions in the context of international projects
- Autonomous proceedings with partners and clients
- Financial control by means of an analytic and strategic approach
- Early risk management through proper project development monitoring
- Strong collaboration with the colleagues of the operational and contracting department
- Cooperation on financing and insurance for projects

**What we expect from you:**

- Higher education degree in business law, business engineering or equivalent diploma matching the needs of the functions
- Fluency in English, French and German. The practice of further languages constitutes an advantage
- Professional experience in a similar area
- Confirmed abilities in negotiating and managing international contracts as well as in project and claim management, are an advantage
- Flexibility and willingness to travel worldwide in order to assist project definition, sales and execution
- High degree of initiative and fully dedicated to the assigned projects
- Ability to work in a professional and autonomous manner and to quickly integrate in a dynamic multinational team
