

Devoted to create. Committed to perform.

Project Purchaser (m/f/d)

CTI Systems S.à r.l. is a leader in the supply and installation of integrated automated manufacturing solutions in the area of heavy loads. Our portfolio includes automated material handling solutions, storage systems, surface treatment installations, assembly lines, software solutions for production control (MES) and integration of machines and installations from other suppliers.

Your responsibilities:

- Lead Purchasing activities for purchase components and material.
- Leading contract negotiations and elaborations with suppliers.
- Monitoring and handling of requirements within the ERP system.
- Controlling and approving invoices in cooperation with the creditors.
- Conducting supplier audits and expediting at the supplier's site.
- Daily understanding and monitoring of project planning requirements and integration into the overall procurement process.
- Analysing and understanding technical requirements in order to adopt the appropriate sourcing strategy.
- Evaluating key suppliers on a regular basis.

Your profile:

- Bachelor degree in Supply Chain Management, Business or Mechanical Engineering, a Master degree is an asset.
- 3 years purchasing, engineering or business experience in an automated manufacturing environment: cross-functional exposure preferred - technical and commercial experience.
- Strong negotiation, financial cost analysis, market analysis, continuous improvement, problem solving, time and project management skills.
- Good command of English and French or English and German (mastering the 3 languages is a real asset).
- Systematic solution- and customer-oriented approach.
- Team-oriented, flexible with creative & problem-solving skills.

We offer:

- A challenging job in an international and ambitious company.
- An attractive compensation and benefits package.
