

Devoted to create. Committed to perform.

Service Technician (m/f/d)

CTI Systems S.à r.l. is a leader in the supply and installation of integrated automated manufacturing solutions in the area of heavy loads. Our portfolio includes automated material handling solutions, storage systems, surface treatment installations, assembly lines, software solutions for production control (MES) and integration of machines and installations from other suppliers.

Your responsibilities:

- Mechanical and electrical installation, servicing or troubleshooting on site
- Assist in the definition of project scope and objectives, involving all relevant stakeholders and ensuring technical feasibility
- Commissioning, testing and hand-over of the automated installation to the customer
- Knowledge of – and commitment to – health & safety procedures in the workplace
- Interface between project management, subcontractors and operators
- Quality control and quality assurance on-site

Your profile:

- Qualified mechanical and/or electrical education with Technical degree and/ or Engineering degree
- Minimum 5 Years working experience in the field
- Good knowledge in German and English and/or French
- Excellent client-facing and internal communication skills
- Open for travelling and occupational mobility
- Strong working knowledge of Microsoft Office

We offer:

- A challenging job in an international and ambitious company
- An open- ended contract
- Excellent opportunities for professional and personal development
- An attractive remuneration package
- An open-ended contract.
